

Study title: Imperial Neurotrauma Centre study of clinical outcomes after traumatic brain injury

IRAS number 230221

Imperial College London is the sponsor for this study based in the United Kingdom. We will be using information from you in order to undertake this study and will act as the data controller for this study. This means that we are responsible for looking after your information and using it properly. Imperial College London will keep identifiable information about you for 20 years after the study has finished.

Your rights to access, change or move your information are limited, as we need to manage your information in specific ways in order for the research to be reliable and accurate. If you withdraw from the study, we will keep the information about you that we have already obtained. To safeguard your rights, we will use the minimum personally-identifiable information possible.

You can find out more about how we use your information by contacting the Cognitron Team:

cognitronapp@gmail.com , Computational Cognitive and Clinical Neuroimaging Laboratory, 3rd Floor Burlington Danes, Imperial College London Hammersmith Campus, Du Cane Road London W12 0NN

The study sites, Imperial College Healthcare NHS Trust / St George's University Hospitals NHS Foundation Trust (as applicable) will collect information from you for this research study in accordance with our instructions.

The study sites, Imperial College Healthcare NHS Trust / St George's University Hospitals NHS Foundation Trust will use your name and contact details to contact you about the research study, and make sure that relevant information about the study is recorded for your care, and to oversee the quality of the study. Individuals from Imperial College London and regulatory organisations may look at your research records to check the accuracy of the research study. The study sites, Imperial College Healthcare NHS Trust / St George's University Hospitals NHS Foundation Trust will pass these details to Imperial College London along with the information collected from you. The only people in Imperial College London who will have access to information that identifies you will be people who need to contact you to inform you of any potentially significant clinical findings, or audit the data collection process. The people who analyse the information will not be able to identify you and will not be able to find out your name or contact details.

The study sites, Imperial College Healthcare NHS Trust / St George's University Hospitals NHS Foundation Trust will keep identifiable information about you from this study for 20 years after the study has finished.

When you agree to take part in a research study, the information about your health and care may be provided to researchers running other research studies in this organisation and in

other organisations. These organisations may be universities, NHS organisations or companies involved in health and care research in this country or abroad. Your information will only be used by organisations and researchers to conduct research in accordance with the [UK Policy Framework for Health and Social Care Research](https://www.hra.nhs.uk/planning-and-improving-research/policies-standards-legislation/uk-policy-framework-health-social-care-research/) (<https://www.hra.nhs.uk/planning-and-improving-research/policies-standards-legislation/uk-policy-framework-health-social-care-research/>).

Your information could be used for research in any aspect of health or care, and could be combined with information about you from other sources held by researchers, the NHS or government.

Where this information could identify you, the information will be held securely with strict arrangements about who can access the information. The information will only be used for the purpose of health and care research, or to contact you about future opportunities to participate in research. It will not be used to make decisions about future services available to you, such as insurance.

Where there is a risk that you can be identified your data will only be used in research that has been independently reviewed by an ethics committee.
